

Wall mounted instrument column

IC-1 Series

The IC-1 saves you valuable floor space

IC-1

This IC-1 instrument column is wall mounted, resulting in an exceptionally small footprint, saving you valuable floor space and making it easy access for cleaning purpose. The IC-1 is available in two colours and can be set up for one or even two instruments. The vertical elevation of the tabletop allows for seated or standing operation of your instruments.

With the additional option of a monitor and keyboard support, this IC-1 instrument column will turn into a complete flexible workstation, which also allows easy wheelchair access. The IC-1 in combination with Topcon's joystick free instruments is the perfect solution to provide complete refractive eye care on a single square meter.

- » Modern design
- » Tabletop available for one & two instruments
- » Space saving
- » Simple & easy operation of the tabletop
- » Easy wheelchair accessibility
- » Vertical elevation of tabletop by 600mm
- » Standing & sitting position usability
- » Workstation with monitor & keyboard support

The IC-1 wall mounted instrument column is designed especially for combining it with Topcon's line of joystick free, touch screen operated instruments. These instruments can be placed in a conventional setup, against a wall, or even in a corner of a room, allowing

for the operator to be located anywhere around the patient. The modern and innovative design of the IC-1 will seamlessly fit in any consulting room. Complete with touch screen PC and keyboard your IC-1 will turn into a complete workstation.

red dot award 2014
winner

The IC-1 received the Red Dot award 2014 which is an internationally well-known design award.

EASY CLEANING

Being wall mounted, the IC-1 provides no obstruction for cleaning the floor in a professional way.

MONITOR/KEYBOARD SUPPORT

The monitor can be placed on either side of the column in variable height positions, the keyboard tray can be rotated and be stored underneath the tabletop.

COLOUR CONFIGURATIONS

The IC-1 is available in various color settings.

TABLE TOP

FOOTPRINT

Saving valuable floorspace in your practice or shop with the extremely small footprint of the IC-1. The installation of even two instruments will take no more than 0,5 m² (780mm x 650mm)

MULTIPLE INSTRUMENTS

The IC-1 is available with a choice of tabletops suitable for one or two instruments.

VARIOUS INSTRUMENT POSITIONS

The IC-1 tabletop can be operated from three sides. This allows you to install any joystick operated instrument in a "classic" way with patient and operator on each of the sides.

ELEVATED TABLETOP

The tabletop can be elevated by 600mm to allow the operator to test at sitting or standing position with ease. The minimum tabletop height of only 720mm allows easy examination of children. The up/down button can be installed on any tabletop side of your choice

WHEELCHAIR ACCESS

Free from the typical table footprint, the clear floor space makes wheelchair patients manoeuvring and positioning very convenient.

IC-1E, great solution for small spaces

IC-1E

IC-1E, Instrument column, is part of the successful IC-1 series. In comparison to the IC-1, the IC-1E enables you to use the complete tabletop as a work area. The IC-1E is available with a tabletop for one instrument or a large tabletop which accommodates two instruments. The tabletop comes in two colors: white & blue.

The IC-1E is unique in its compact dimension and small footprint. Similar to the IC-1, the IC-1E, Instrument column, has a remarkable large stroke of 600mm. IC-1E is especially designed with Topcon's joystick free touchscreen instruments in mind.

- » Innovative unique design
- » Extremely space saving
- » Easy wheelchair accessibility
- » Large tabletop elevation stroke of 600mm
- » Standing and sitting position usability
- » Tabletop available for one or two instruments

FEATURES

IC-1E

COLOR CONFIGURATIONS

The IC-1E is available with two different tabletop colors.
